The washout at Muir, east of Butte, was tracked around today and trains are en route to Helona, where they will be transferred to the tracks of the Great Northern and sent west. These trains, however, may again be stalled at Great Falls as the result of washouts at Shelby Junction on the Great Northern line, which tonight are reported to the Miner as having tied up traffic on the Great Northern in that section of Montana.

A washout occurred in the Pipestone canyon, just east of Butte, which blocked the operation of stub trains.

As the result of the bursting of White's dam just below the city the tracks of the Oregon Short Line were inundated tonight and traffic on that line will be tied up for a number of hours. No attempt will be made to start the early overland train this morning for Salt Lake.

The Buttle, Anaconda & Pacific railroad is also in trouble.

Trains Stalled.

HELENA, Mont., June 2.—The Great Northern train running between Butte and Great Falls, due here at 14:30 tonight, is stalled near Basin on account of a washout on the Great Northern. It is not known when the train will reach this city. A small section of the Great Northern tracks was washed out at Silver, north of here, today, but has been repaired.

### F. C. HOLDEN IS HEIR TO SMALL FORTUNE

F. C. Hoiden, an inmate for the last seven months of the Volunteers' hospital suffering from nervousness, learned Wednesday morning that he is heir to a small fortune. The information came in a letter from his mother in Indiana, which said that his father died twelve years ago, leaving him an estate valued at several thousand dollars. The letter also contained enough money to send Holden to a hospital until he recovers. Holden came West sixteen years ago and built up a little fortune making cabinets in Idaho. From there he went to Green River, this State, where he lost several thousand dollars in mining ventures. As soon as he is able to travel he will return to his Indiana home to claim the fortune

### CARLOS E. W. BOWERS IMPROVING RAPIDLY

Carlos E. W. Bowers, the jeweler, whose herse was killed from underneath him by a street car. Tuesday, and himself badly injured, showed such marked improvement Wednesday as to lead the physicians to believe that he is out of danger, especially from internal injuries, thirty-six hours having passed without any developing. He will be sore and siff for several days, however, and will not be able to move about much.

Bowers was trying to break his horse from frightening at street cars when the auction happened, and the animal whosled suddenly after he got it off the tracks once and reared and plunged in front of the car again.

### LIEUT, SANTSCHI GETS GENERAL SCIENCE DEGREE

Lieut Eugene Santschi, of the Fifteenth infantry, returned Wednesday night from Logan, where he received a degree of Bachelor of Science at the Utah Agricultural college. Before entering the United States Military academy at West Foint, Mr. Santschi was a student at the Logan institution and completed all but six months of his course. After his graduation from the military academy, he completed his studies at the Agricultural college and at the 1908 commencement took his place in the class and received his degree.

Learned to Drink Coffee When a Baby.

If parents realized the fact that coffee contains a drug-caffeine-which is especially harmful to children, they ould hesitate before giving the babies coffee to drink.
"When I was a child in my mother's

arms and first began to nibble things at the table, mother used to give me sips of coffee. As my parents used coffee exclusively at meals I never knew there was anything to drink but coffee

and water.
"And so I contracted the coffee habit early. I remember when quite young, the continual use of coffee so affected my parents that they tried roasting

wheat and barley, then ground it in the coffee mill, as a substitute for coffee. "But it did not taste right and they went back to coffee again. That was long before Postum was ever heard of. I continued to use coffee until I was 27, and when I got into office work. I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspond-

ence.
''At night, after having coffee for supper, I could hardly sleep, and on rising in the morning would feel weak

"A friend persuaded me to try Postum. My wife and I did not like it at first, but later when boiled good and strong it was fine. Now we would not give up Postum for the best coffee we ever tasted.

# MRS. ELINOR GLYN OFF FOR ANOTHER CLIME

English Author Leaves Salt Lake for the East; Mentions New York.

Mrs. Elinor Glyn, who arrived Sunday rom Nevada with the Samuel Newhouse party, and since has been a guest at the Newhouse home, on East South Temple street, left Wednesday on the Overland Limited for the East. Before her departure. Mrs. Glyn spoke quite bitterly of the stories which have been telegraphed from vada concerning her concerning the Sage Brush State

Mrs. Glyn explained that her latest book, which contains most of her maxims and epigrams, will be placed on sale in a few days. It has just been published and is a handsome and preclous little volume. The philosophic sayings of Mrs. Glyn's characters, with the exception of "Visits of Elizabeth" and "Three Weeks," appear in the book, together with a really personal epigram, to which Mrs. Glyn has affixed her dainty signature.

PARIS, June 3.—Although the police are securing the criminal quarters of Paris, cross-examining artists' models and

arc scouring the criminal quarters of Farls, cross-examining artists' models and running down overy clew, no arrests have yet been made in the case of Artist Steinhell who, with his mother-in-law, Mme. Japy, was murdered in his studio early Sunday morning.

Emphasis is laid upon the fact that the artist's widow sent away the cook, a large and strong woman, the day before the crime and declined the offer of a watch dog made by some neighbors. Attention is called also the the circumstances that the only traces of ink from the overturned inkwell were found upon the bed upon which Mme. Stginhell was discovered bound and gagged. It is alleged also that Mme. Japy's body was placed upon the bed after she had been strangled.

Mme. Stenhell is prestrated and hysterical and has been removed to the residence of a friend. Count Arlen, for treatment.

### SOCIALISTS RULE BUTTE FEDERATION OF MINERS

BUTTE, Mont., June 3.—Of thirteen delegates elected by Butte Miners' Union No. 1, W. F. M., to the annual meeting convention of the Western Federation of Miners, to be held in Denver in July, nine are avowed Socialists. The Butte else-tion was held last night, and the poll showed the Socialists in control. The election is highly significant, as Butte is the parent union of the Western Federation of Miners, and the strongest local in Butte, moreover, has always blocked heretofore the repeated efforts to piedge the Western Federation of Miners to Socialism.

Ovation for Dubois. It was 8 o'clock when Chairman Mc

Mr. Chairman, Gentlemen and Ludies— We will now have the first harmonious and Democratic convention that has been held in Idaho since the Mormon church moved over into and took possession of held in Idaho since the Mormon church moved over into and took possession of the Republican party. (Great applause.)

You know that in 1962, when there was no Mormon question, when that subject was not mentioned in the platform of any party, when the Mormons were not referred to by any public speaker of the State, when I was not a candidate for office, having been elected two years prior to the Senate, with no excuse the Mormon apostles were carried to southeastern Idaho and instructed to vote the Republican ticket, and they voted it. I recall when D. L. Evans was a candidate for State Senator from Oneida county. Oneida was at that time five or six thousand majority Democratic. When I reached that county Mr. Evans said: "We will be beaten, the aposties have been in the eastern part of the State instructing their people how they should vote." D. L. was a Mormon. (Great applause.)

Work of John Henry.

Work of John Henry. During the Legislature of 1902-3, when Mormonism was not an issue, John Henry Smith, a polygamous apostle of the Mor-mon church in Utah, went to Boise and and passed a resolution through the Leg-slature and passed unanimously, such was their power, to have the test outlituden out of the constitution of the State. They intended to put us completely un-They intended to put us completely under the polygamous hierarchy, and the Democratic party of Idaho rebelled.

At a meeting of the Democratic State central committee during the campaign of 1904, attention was called to this and attention was also called to the fact that that very same Legislature passed a beet sugar bill by which the Mormon church was given one-half million dollars and the Republican party has not had the courage to pay it.

We insisted that they should not take the test oath out of the constitution. A

resolution had been passed unanimously, but when the Democratic party attempted to have it enforced, the Attorney-General of the State of Idaho ruled that the resolution had been improperly passed, and they would not sumbit it to the people. The Attorney-General of Idahe would not have made this ruling had he not known that the people of the State would not take the test oath out of the constitution. I say this advisedly, because the Attorney-General at that time was a Mormon. The Attorney-General, four years ago, while holding that high office, took a new polygamous wife. We think that that law should be passed and enforced.

### The Test Oath Decision.

The Test Oath Decision.

The supreme court of the state of Idaho ruled that the test oath is self-executive, self-operative. They tried at the polls to put the test oath to the Mormons, and they arrested our challengers and put them in jail. They will not do that under the ruling of the supreme court. The Mormons will not take the test oath. They commit perjury when they take the test oath, and they know it. Not one of them but practices or believes in plural and celestial marriage.

That accounts for the fight witnessed in this convention here today. I regret our departed friends have taken their leave so early. They have tought us ever since our party has taken the high ground which it now occupies. What we have done here today will be finished over the wires throughout the length and breadth of this great country of ours tonight, and there will be good men and women who will appland and say, "We 'thank God for the protection given our American homes." They claim we cannot win without the Mormon vote. That makes no difference to this assembly. (Great cheering.) out the Mormon vote. That i difference to this assembly.

difference to this assembly. (Great cheering.)

There is something higher than winning an office. We are met under the great commonwealth of this country and the American people intrusted to us safe guardianship of this great heritage. It is our duty as American etitzens to do so. It is a pleasure to talk to men actuated by the high principles which guide you, but I want to mention in a personal way that I have been more than amply rewarded for anything I have done. I have lived in Bingham county for twenty-eight years and in the village of Blackfoot for twenty-eight years, and it is sometimes said of me that I am a pretty fierce fighter. At any rate, during the twenty-eight years in my county of Bingham there is not an American citizen who has not been with me in the fight. I ask no higher reward than that. If the Mormons think I will abandon the mon and women in the southeast and turn them over to their polygamous outfit, they have studied my character in vain.

When he concluded he was cheered again, and then Charles H. Jackson took platform in response to repeated s. In his address Mr. Jackson said calls. In his address Mr. Jackson said that individual liberty is the mest sacred thing we can give to our children. Rather defeat with honor than victory with the Mormons. The committee on resolutions then presented its report, which was read by A. L. Freehaver, and which report was adopted. The report follows:

### Text of Platform.

We, the representatives of the Demo-cratic party of the State of Idaho, in convention assembled, in the city of Twin Falls, do hereby renew our allegiance to the doctrine of equal rights to all, and special privileges to none, as taught and practiced by Jefferson, Jackson and

# **NEW FAD FOR 400'S CHILDREN**

Folk Dances Which Delight Tenement Little Folks Now Privately Target to Children of the Rich.

NEW YORK, June 3.—A group of fashionable women in New York's "Four Hundred" have just engaged a dancing instructor in the public schools to teach their children the folk dances which long have been taught without charge to the children of the tenements at the East Side public schools. It has been found that these dances appeal quite as much to the future society bud, who has to lift her little skirt of silk or sheer embroidery, as to the little Sadie or Maggie or Rebecca, who lifts a patched little calico dress fresh from mother's tub and ironing board. For wealth is not the determinant of a child's happiness, and in sheer joy of living and in laughter and play wealthy little folks by no means have a monoply in this great city.
This folk dancing broke into juvenile

society largely through the agency of Mrs. Clarence Mackay. For goveral years she has been an active member of the Girls' Branch of the Public Schools Athletic league, and, more recently, has become interested in the work of the Playground Association of America, which is striving to induce every city in which is striving to induce every city in the United States to provide adequate playgrounds and play instructors for the children. Mrs. Mackay visited many public schools and found that the girls were gaining grace, strength, health and happiness from these folk dances, which illustrate the national life of many European peoples. It occurred to her that her own daughters would benefit from such training, and, joined by the Vanderbilts and the Lorrilards, she induced Miss Elizabeth Burchenal, who teaches the public school children, to form a private class uptown. As a reform a private class uptown. As a result the Mackay children, little Muriel and Consuelo Vanderbitt, and a number of other children of their set, are now following in their own homes the same dancing course that the public school pupils follow. Moreover, on these class days, the matrons of society gather to see their daughters practice the intricacies of Bohemian, Swedish, Danish, German and American folk dances with quite as much pleasure as the tenement mothers feel in seeing their little folks enact these pantomimes of national childhood. As one play expert put it, "the same things will make all children happy, if only you can put your finger on the right activities. Children's happiness is frequently quite happiness is frequently quite apart from money matters

Advocate in England. This play movement in society has recently received another advocate in person of the Duchess of Marlbor the person of the business, indorsed ough, who, in a public address, indorsed the programme of the Playground Asso-ciation of America. Her advocacy of ciation of America. Her advocacy of more playgrounds for children carries more playgrounds for children carries with it the support of many persons powerful in society. And from present indications it would seem that folk dancing, which is rapidly becoming epidemic among public school children, and is being added to public school courses of study as rapidly as teachers of the new art can be obtained, will be decidedly more than a passing fed in high new art can be obtained, will be decidedly more than a passing fad in high society. In fact, so great has the demand for teachers for private classes and in public schools become that New York university, at its coming summer session, will devote an entire department to training teachers for this work. Miss Burchenal, who will conduct the summer course in folk dancing at the university, declares that the great value of these dances for children lies in the fact that the Old World rhythms give a sense of freedom and entirely obviate the self-consciousness which is the main
